## WORKING EXPERIENCE

### Intern

#### Al Ain Police Directorate

02/2023 - 04/2023

Al-Ain City

##### Achievements/Tasks

- Configuring the network
- Camera Security
- BIOS architecture
- Server isolation
- Wiring LAN architecture
- Communication and signals
- Networking

## EDUCATION

### Bachelor in Cyber Security

#### Al-Ain University

09/2020 - Present

GPA: 3.18

##### Courses

- Ethical Hacking
- Computer Network
- Operating System
- Computer Forensic
- Cryptography
- Risk Management
- Java/python/C++
- Artificial Intelligence

## SKILLS

Python

Linux

Java

Communication

C++

Bash Scripting

## PERSONAL PROJECTS

### Nano\_Facement

- Nano\_Facement is a tool that detect and fix the web defacement attacks. It was created in 2022. It is written python tool and works on Linux OS. It was tested and proved it's ability in IEEE competition which where hosted by HCT (High Colleges of Technology) and DC park (Dubai Cyber Innovation Park) and rewarded the second place winner.

### Nano\_Trusion

- Nano\_Trusion is a signature based IDS/IPS. It was created in 2023 . It is written in python and works in Linux OS. It is completely terminal interface. The tool still have upgrades and updates coming in the future.

### Ease\_flag

- Ease\_flag is a tool that makes it easy to the CTF (Capture The Flag) players to gather information about the system. It is written in Bash Scripting and it is a Linux OS tool. The tools is under maintenance because of the Linux new repository updates/upgrades.

## ACHIEVEMENTS

### IT Marathon 1st

1st place winner at UAE IT Marathon in web development 2017-2018

### IEEE 2nd

2nd place winner in IEEE 2022-2023 hosted by HCT (High Colleges of Technology) and DCI park (Dubai Cyber Innovation Park)
